

Best Practice Group Safety in the Workplace

Overall purpose

To share, explore and implement best practice around safety in the workplace. The importance of safety in the workplace cannot be overstated, and the best practice group provides a collaborative and supportive environment. We have access to additional resources through our partnership with the Nissan car plant in Sunderland.

Current topics being discussed

- Management of contractors, visitors & agency workers
- Engineers – their role with H&S in the workplace
- Design & Implementation of effective training to deliver safety
- LOTOTO
- The role of the First Line Leader in promoting safety in the workplace
- Management of 'high-risk' interventions
- Risk assessments, SSoW's & SOP's
- Site leader responsibilities/accountabilities
